

The plan for a One World Govt./Orwellian New World Order is near completion. This will be achieved by merging the already existing Sth.American, Asian/Pacific, European, African and Nth.American Unions to form the Global Union by 2018 with a one World Currency and a reduced micro-chipped population to replace cash. Babies are already being 'chipped' for 'security' reasons and through mandatory vaccination programs. The Euro notes already contain an RFID (Radio frequency ID chip, Micro wave them and see). The proposed new currency for Nth. America is the Amero. In 2005, Canada, Mexico and US were joined together like the E.U. and this is the cause of the orchestrated crash of the dollar which will be replaced by the Amero and will merge with the Euro and Sterling as a 'harmonising' process towards the Global currency. This has been planned by the cartel of private bankers through the Federal Reserve System which was never fully ratified under the American Constitution. The Lisbon Treaty which IS the European Constitution, is a major part of the plan as it will render the Irish Constitution, hard bought for over 800 years, obsolete. Already our Farmers cannot farm the land, our Fishermen cannot fish our seas, our sugar factories are gone, our sacred land in Tara is being destroyed, our natural resources have been given away to Shell in Mayo and elsewhere, we depend on overpriced subsidised irradiated food imports - all this as a result of freedom eroding Laws from Brussels and the Family unit is constantly under sever attack, our Homes are threatened by the issuing of billions of fat money notes enslaving the People to pay taxes and interest on money that simply does not exist. We the People have been, mass-riddled, Lisbon is the final trap. There is no turning back, it is the final Treaty to enslave us all. We want our Country back, our Homes back, our Families back. We can only achieve this if we return to printing our own money as before. The Irish Pound had two real signatures, a full date (although central) a bank, and legal tender printed on it. The Euro has none of this. Worthless. We have little time to sink Lisbon 2 and prevent our kids from being chipped like cattle. Our fore Fathers left us the legacy and protection of our Constitution. What will WE leave OUR Children? We have the last chance to save the Irish Constitution by voting a resounding NO2 LISBON2. Get involved by photocopying this message.

**WE WANT OUR MONEY BACK. WE WANT OUR COUNTRY BACK.
VOTE NO TO LISBON TO SAVE THE IRISH CONSTITUTION.
